

## SIMPLIFY AND PERSONALIZE YOUR ONLINE BANKING EXPERIENCE

Keep track of how and where you're spending money each month by personalizing your online banking experience in CONNECT. With just a few clicks, you can organize, rename and categorize just about anything in CONNECT to make it work for you.

### GROUP ACCOUNTS

- 1 Log in to CONNECT.** This page is prefilled with all your Auburn State Bank accounts. From here, you can group accounts together (e.g. your checking account and your spouse's can be in one group, and your savings accounts can be in another).
- 2 To start building your groups, click and hold on the account tile and drag to the red circle.** Your new group will appear at the bottom of your list. You can also move accounts between groups by clicking and holding the account tile and dragging to your desired group.
- 3 Next, you can change the name of the group by clicking on the pencil** to change the name of the account, **click on the dots** within the account tile and then click on "Nickname Account."

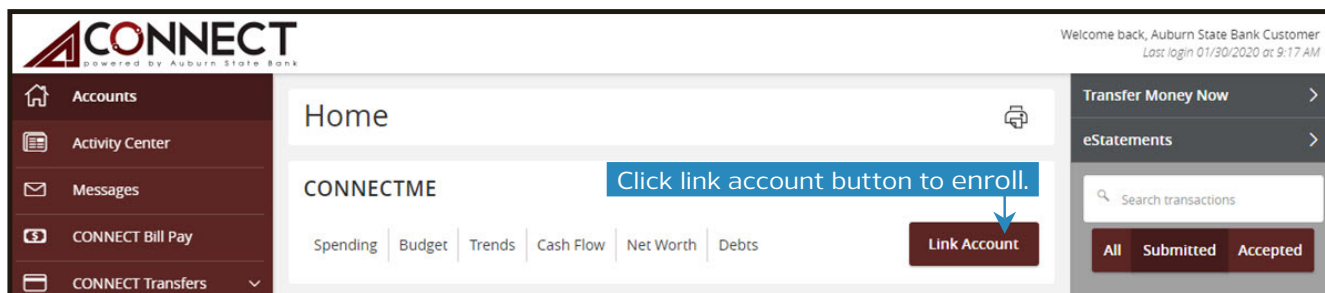

### PERSONALIZE HOW YOUR TRANSACTIONS APPEAR

Enroll in **CONNECTme** to take personalization one step further by categorizing and renaming your transactions. Categorizing will help you understand what types of things you're spending your money on. Renaming will help you quickly recognize specific transactions. So, "SHELL OIL XXXXXXXX1007 AUBURN NE" becomes "Shell." To categorize and rename your transactions:

- 1** In CONNECT, **click on an account**, and then click on the transaction you'd like to categorize and/or rename.
- 2** Under the Details, **click on the pencil** to change the category and subcategory, and to change the online description.

# ONE PLACE FOR YOUR WHOLE FINANCIAL PICTURE

To enroll in **CONNECTme** you simply click the **link account** button.

CONNECTme allows you to link different types of financial accounts from various providers into your Auburn State Bank homepage so you can see all your assets, balances and expenses each month in one place.

Once your accounts are linked, use the CONNECTme tools to stay on top of your finances.

## OUR TOOLS CAN HELP YOU

- Keep track of **spending**
- Build a **budget**
- See spending **trends**
- View past, present and predict future **cash flow**
- Estimate your **net worth**
